If this is worth my time then I'll be here for awhile
If this is worth your while then you're making me smile
If S.I.L.Y.M.I is all you want
Then I'm not sure how much in common we've got
If you think you've had enough, if you think you've had
enough

Somebody's gonna miss us when nobody's here for
this song
Somebody's gonna miss out when nobody's had in the
club?

'cause this is no attempt to abandon anyone
It is the influence of the music we love
Well if you can't relate and refuse to sing along
Then maybe I can interest you in some other song
A little something like
All that you want is another baby yeah

Somebody's gonna miss us when nobody's here for
this song
Somebody's gonna miss out when nobody's had in the
club?

Well oh my

If it's gonna take time
it's gonna mean that all of my
all of my mistakes are gonna be solved
and we're gonna be great

Somebody's gonna miss us when nobody's here for
this song
Somebody's gonna miss out when nobody's had in the
club?

Somebody's gonna miss us when nobody's here
here for this song and I hope they will
Somebody's gonna miss out when nobody's here
