I couldn't do it  
So I asked for a helping hand  
To get me through it  
But I guess it wasn't in your plan  
Or maybe you were

Just too busy to make time for me  
I always put you first  
Expected me to figure out things  
But they all kept getting worse  
When I think about the way you let me down  
I wonder if I'm supposed to count on you

How could you ignore me?

My imaginary friend didn't come through in the end  
So now I have to find a real one  
Didn't answer when I called  
Well I guess it's just because  
He was never there at all

I can't believe it  
Now that I'm looking back  
Why didn't I see it  
Well I guess I didn't even ask

While you were never  
Ever in the places I would go  
You never showed yourself  
All those heart-felt conversations  
Were with me and no one else  
When I called your name  
You never answered am I insane?  
If you saw my suffering  
How could you ignore me?

My imaginary friend didn't come through in the end  
So now I have to find a real one  
Didn't answer when I called  
Well I guess it's just because  
He was never there at all

It's not hard to let him go  
I don't know know why I ever loved him so

Maybe there is something wrong with me  
I don't see what they see  
Used to fold my hands and close my eyes  
And think that you were with me  
Now there's something wrong  
It doesn't seem to make much sense  
I just feel so stupid now

How could I believe it?

My imaginary friend didn't come through in the end  
So now I have to find a real one  
Didn't answer when I called  
Well I guess it's just because  
He was never there at all

My imaginary friend wooh-yeah (Now I have to find a  
real one)  
Didn't come through in the end wooh-no (Cause' he was  
never there at all)  
He was never there at all
