[Theme to Rave Master]

Welcome to the tale of a land conquered by evil
People in despair and living frightened to their bones
Haru and the gang set out to find the answer
But together we must find a way To beat the Shadow
Stones

He who holds the sword must next become the master
Seeking out the stones with a carrot nosed dog!
Three heroes and one start a mission filled with danger
Three, Two, One! Time for Rave-o-lution!

Quest for Glory
Accepting our fate with the power that we own
It is a hero's story
For it's the greatest that the world has ever known!
