I hope you'll find it in your heart and know these words  
are true  
And please don't cry  
you know that I must do what I must do

(Chorus)

[Stephen Marley] (Bridge)  
Well and it's not easy  
Jah knows how I try, I try  
So don't you get irie  
Jah knows how I try, I try

[Mos Def] (Verse)  
God knows...  
Life is one big road  
With alot of signs and turns & twists and curves  
Even though the road is rocky  
My main thing's to rock and keep on rockin'  
From city to city  
Backyard to yard  
And we be seein' the sights, standin' under the lights  
And the spot is hot, it's cold and lonely at night  
And I'm feenin' and I'm dreamin' and I'm holding you  
tight  
But hold on, every single road I roll on  
Comes to an end and I'm back home again  
So baby please don't cry, there's no valley low and  
there's no mountain high  
And our love don't die with the passage of time  
It just grows more,  
and just keep strong  
And even though i'm gone, I am never too far  
You're the light thru the dark, shining right thru my  
heart  
So my journey must start...

(Chorus)
