[Talib Kweli]

Yo, we're going to have the word love  
In many different languages  
Translated all through the track.  
So, whenever you hear the word love  
Know that, it's going to be in a different language  
The language of love cannot be translated, yo

Love is blind, you just see bright light  
You up in the club feelin' the night life, lookin' for the  
right type  
Blood rushing to your heart making it beat  
When she swept you off your feet and made it  
complete  
You know the plan you had to conquer the world  
Thinking you Scarface, looking for that perfect girl  
And now you found her  
Started with romantic, then got to frantic  
Then things that's normally small become gigantic  
Now y'all sinking like the Titanic here come the panic  
When I'm with you like a habit without you I can't stand it  
It's tragic when you wonder when you lost that magic  
Without understanding that you never had it try to grab  
it  
In the bed can't get a nut off, communication cut off  
Getting mad cause you turned or wondering where she  
shut off  
Constantly comparing you to someone in my past  
We don't smile anymore, and we argue over cash  
Advance to that physical shit  
See what happens if you keep talkin  
See what happens if you lay a finger on me motherf...  
Yo, see what I'm sayin'  
It's like one big mind game that everybody playin' and  
Niggas say bitches is trife, bitches say niggas is  
We just don't understand our fundamental differences  
I'm still learning though, actually  
I just do what come naturally, naturally, naturally

Chorus:

(Indistinct)

[Talib Kweli]  
Women thrive on emotions, men refuse to  
acknowledge  
So when we arguin' nobody win  
Words get in the way time and agai
