We could write our names here in the mud
No one's around to see them
We could hang our shoes here in a tree
No one's around to steal them

I could give you a star, you could give me one too
And that way we'd be even
And I could sing this song way out of tune
And not care a bit about it

We could both wear cowboy hats
And pretend that we could speak Italian
I could eat some gum
And make my breath so minty fresh to kiss you

Your breath will smell like wine
I like that a lot especially when I kiss you
And I could hit my funny bone real hard
And you could call me sweetheart

And who ever said there's nothing new under the sun
Never thought much about individuals
But he's dead anyways

Lets go down together
Down together
Lets go down together
Down together
Down together

Lets go down together
Down together
Down together
Lets go down together
Down together
Down together
Yeah, lets go

We could all wear ripped up clothes
And pretend that we're dead hot workshop
I could drive a long long way
And not even have the gas to make it back

We could chase our shadows around the lawn
'Til we're both exhausted
And I could forget the words just one more time
And hope that no one notices

And who ever said there's nothing new under the sun
Never thought much about me, yeah

Well what's good for you is good for me
And what's bad for you is bad for me
What's good for you is good for me
And what's bad for you is bad for me

Well cars break down and people break down
And other things break down too

So lets go down together
Down together
Down together
Lets go down together
Down together
Down together

Lets go down together
Down together
Down together
Lets go down together
Down together
Down together
Yeah, lets go

Alright, alright
We could find a smug of dust
And scribble down our life story
