Just where is it that you fell  
True, death is another realm  
When the reaper comes for you  
All is not well, what will you do  
As you fell you were ripped and torn  
Surely you wish you'd never been born  
In the abyss of eternity  
For your prodigal deeds you bleed

So now you have reached it  
This is your fate  
It's no one's fault but yours  
You died by your ways  
You ask for one more chance  
That it may be tried  
Instead of reaching answer  
You are denied

You lead a selfish and wasteful life  
This is why you suffer the scythe  
Never helping your friends in need  
For in your mind there's too much greed  
As you regain consciousness  
You're certain this isn't a trick  
You went to mass every day  
None of it mattered anyway

Repeat chorus  
Solo: Hoyer

Though you'd like to think it's a dream  
Things are really what they seem  
In this pit you are doomed to remain  
With this horrible searing pain  
The visions here are not in your head  
Nor of the words from which you have read  
It's the figure in black that took you away  
And it's here in hell you're destined to stay

Repeat chorus
