Rising from the ashes  
Of colossal wreck  
The sirens call from within the ruins  
Call for the final attack  
Building burnt to ashes  
Corpses in the mud  
The frozen streets of Stalingrad  
Covered in flesh and blood

Fire and smoke  
Wiping your senses dry  
Sharpshooters fire  
Death reigns from the sky  
Once in hell  
Escaped punished as treason  
Ghosts of war  
Rids men of their reason

Operation Saturn  
We wake back to life  
Children of the motherland  
Stand up to end this strife  
Sons of the red banner  
Your story shall be told  
The bloodiest battle man's eyes have seen  
In the heart of winter's cold

Repeat chorus  
Solo: Potash  
Solo: Hoyer  
Solo: Potash  
Solo: Hoyer

In the blinding lines of fire  
Machine engines roar  
Starving freezing lacking supplies  
They continue to fight their war  
So many lie in the snow  
Bullets have silenced their woes  
The heroes sacrificed to stop the invasion  
A feast for wolves and crows

Repeat chorus
