

## Refused "Pump the Brakes"

Visit "[Pump the Brakes](#)" on MotoLyrics.com

Genocide on genocide  
Destroyed knowledge crushed pride  
Lost culture to civilization  
Reduced abused beyond dignity

Contemplation exploitation  
Ring the bell of information  
Blocked the truth convincing, controlling  
Held us down unthinking, unknowing

Oppressed so many for so long  
We've ignored the facts and moved along  
We gotta pump the brakes, wasting resources  
Face some facts and detect the causes

'Cause our progression equals destruction  
People getting killed by government corruption  
'Cause making most of the land  
That's the plan you gotta understand

That fifty years down the line  
There won't be no time, the time is now

Drained so much for so long  
We've ignored the costs  
And moved along  
Time to pump the brakes  
Gotta pump the brakes  
Pump, pump the brakes
