An ideological system constructed to guarantee  
That the public remains passive  
Uneducated and in apathy  
That the crimes committed they just pass us by

As the state continues to fill us with lies  
Face the flag in the land of hypocrisy  
Free to conquer, free to rape, free to kill  
Free to take, free to do whatever's in your will

How many actions in the name of democracy?  
When we don't even know who's our enemy  
Survival of the fittest blend with superiority  
So many untold stories can't spell credibility

How many lies in the name  
Of freedom, peace, progress, democracy?  
Tolerance is acceptance  
The 5:th freedom
