Where will you run to, when you've lost the fight
What can you count on, when you can't tell black from
white
And who can you turn to, who's gonna hold you in the
middle of the night
Tell me who's gonna be that one, who's gonna treat
you right
You just call me, baby just call me
It doesn't matter where you are, I can fill the empty
space in your heart
I'll be there
There's a light in my window, so you can find your way
And you've got my number, if there's something you
have to say
And if a cold wind is blowing, the door's always open
any night or day
So when you need what only love can give, don't ever
hesitate
You just call me, baby just call me
It doesn't matter where you are, I can fill the empty
space in your heart
If you just call me, baby just call me
'Cause if you ever need me, I'll be there
Baby one day you'll find out, whoa you're gonna find
out
All that you wanted was right there in front of your eyes
(Solo)
Who's gonna be there, who's gonna hold you that close
tonight
Tell me who's gonna be there, who's gonna treat you
right, yeah
You just call me, baby just call me
It doesn't matter where you are, I can fill the empty
space in your heart
If you just call me, baby just call me
'Cause if you ever need me, oh call me, baby just call
me
'Cause if you ever need me, oh baby you ever need
me... (to fade)
