Did you crave yourself to death boy?  
Did you trip into the words she said?  
Did you pave the road to loose my love?  
Did you hear a voice inside of your head?

Now you're beggin' me stay  
Stay with you but things won't change

This is self-inflicted  
Do you feel better now you know how it feels,  
when everything hurts?

Did you ache to taste her lips boy?  
Did it make you feel alive just for once?

Now you're beggin' me stay  
Stay with you  
Things won't change

This is self-inflicted  
Do you feel better now you know how it feels,  
when everything hurts?  
This is self-inflicted  
Do you feel happy now you've tightened the rope to  
feel how it burns?

Now that we're dead is everything alright?  
Was she worth it all the way or do you cry for  
yesterday?  
What a relief  
Everything's quiet now  
Can you make it all come 'round  
R.I.P.  
I hope you're found

Now you're beggin' me stay  
Stay with you  
Things won't change

This is self-inflicted  
Do you feel better now you know how it feels,

when everything hurts?  
Yeah, this is self-inflicted  
Do you feel happy now you've tightened the rope to  
feel how it burns?
