Here she comes, what 'ya gonna do about it
Another shot of love, you know you can't live without it,
oh no

We gotta make it, make it while the night is new
So come on, and show me what you're gonna do, oh
yeah you

Gimme love, a whole lot of love, yeah gimme love
Well I can see it coming from the fire in her eyes
She's got that kind of love that'll burn you up inside
Ooh yeah (any kind of love), gimme love (any kind of
love)

I need love (any kind of love), I said ooh yeah, ooh
yeah, ooh yeah

Another night, you know you need it bad enough
I need to love you, love you 'til you had enough
I can feel it, feel it from across the room

I'm burning up, you know there's nothing I can do
without you

Gimme love, a whole lot of love, oh gimme love
Who's foolin' who, when you hear that little voice
So now you have to face it, that you got no other choice
I said ooh yeah (any kind of love), gimme love (any
kind of love)

A whole lotta love (any kind of love), gimme love, yeah
yeah yeah

And it all comes down to this

(Solo)

I need a love that's so, so sweet

You've got that kind of love that'll knock me off my feet
I said ooh yeah (any kind of love), I need love (any kind
of love)

Yeah gimme love (any kind of love), a whole lotta love
(any kind of love)

Ooh she's got the power - yeah she's got the power

Hour after hour - hour after hour - gimme love - gimme
love

Any kind of love, any kind of love... (to fade)
