Come on, show me what you're missing, tell me what's
bothering you
There's too much time that's being wasted
I know there must be something I can do
Well I'm on my way, yeah I'm on my way, yeah yeah
Well there's nothing to say, baby tonight, just
Chorus:
Take me away - come and get your lovin' now
Take me away - come on, come on
Take me away - come on into my life, 'cause I need you
tonight
I'll listen to you darlin', tell me what you want to do
No he doesn't love you, doesn't love you like I want to
So I'm leaving tonight, I want to make it all right
'Cause it's late in the night, and I'm needing you, so
chorus
If you want me to love you, I'll show you what you gotta
do, that's true
It's not enough just to know you, I need someone to
hold on to, and it's you
So baby come on, baby come on, baby come on
Yeah I'm on my way, yeah I'm leaving today, yeah yeah
Yeah I'm on my way, maybe tonight
Take me away - come and get your lovin' now
Take me away - come on, come on
Take me away - somewhere I've never been before
Take me away... (repeats out)
