I think about you every night
I'm losing sleep, I can't let you slip away, don't slip
away
Now we can't keep this silence up, I've had enough
We need to find another way, or the words to say
Girl, I think I know but I've been wrong before
I need you now, I couldn't want you more
You're gonna feel what I already know, we need each
other so don't let go, no
Chorus:
You're gonna miss me when I'm gone, you're gonna
feel the way I do
You can try to hide it, but you're gonna miss me
You're gonna miss my loving touch that you know you
need so much
Yeah you're gonna miss me, just like I miss you
Oh it's true
If there's a problem, a shadow of doubt, we'll work it
out
Your heart's gonna let you know, which way to go
So don't let a good thing die tonight
We've got the chance and we can make it right
Your eyes can tell me just what we should do
It's never too late girl for me and you
chorus
(Solo)
Oh, you're gonna miss me
chorus to fade
