### "Death And Night And Blood"

When I saw that sparta in his eyes  
Young death is good  
And we decided that to die  
there was no greater love

Hey little baby  
don't you lean down low  
Your brain's exposed  
and it's starting to show  
Your rotten thoughts  
YEUCH!

I was attracted to a night torchlight parade  
And there I came  
Home is a black leather jacket  
fitting sweetly to my brain

I will force my body  
to be my weapon and my statement, so

Death and night and blood  
Death and night and blood...
