Sure enough that we could change  
Is it more than that to rearrange  
Shove the lies deep away  
Love the feeling moving me girl  
Show the light a moments truth  
Is it more than just an attitude  
Some will win and some will lose  
Anytime you know the line  
Its over girl its over anytimes you wont allow me to  
Said you know tonight its done  
Dig around and tell your friends  
Through the night the mornings end  
All at lost we can mend  
Love this feeling moving me girl  
Show the light a moments truth  
Is it more than just an attitude  
Some are weak and some will lose  
Anytime you know the line  
Its over girl its over anytimes you wont allow me to  
Said you know tonight its done  
Its over girl its over any lines you want me to  
is it more than that the lies tonight  
Cause when I'm finally able just try and stop this  
feeling  
Know this I'll be waiting here with my guitar  
Cause when its finally over know this I'll be waiting  
Know this I'll be leaving here while I'm still young
