

Reggie And The Full Effect "Gettin By With It"

Visit "[Gettin By With It](#)" on MotoLyrics.com

I see your sister staring at me out of her window.
She wants to talk to me to learn the things that she
don't know.

And it's all just part of education,
and we're telling kids across the nation.

And it's you that does this to me.
And it's you that sees right through me.
And it's you that's never done.
(x2)

Get in the back seat, back beat, baby you're too slow.
Why'd you keep running girl, cause that was two
records ago.

And it's always for the satisfaction,
and we do it just to get a reaction.

And it's you that does this to me.
And it's you that sees right through me.
And it's you that's never done.
(x2)

Don't ever worry about me,
cause I'll make a monkey of me.
And you'll be just fine.

And it's you that does this to me.
And it's you that sees right through me.
And it's you that's never done.
(x4)
