Hide all the children
The wise and the vision
Morning division
They won't be forgiven

Run out the sorrow
There's always tomorrow
We'll never leave them
Not 'til the hollow

Stepping over all the people's bodies left behind
We'll escape this together

If we lay like the victims
To mask all the reasons
Don't make a sound sister
?Tis not the season

Shut out all the horror scenes we'll make our break
tonight
We'll escape this together

If we're here when the fire dies
We'll make the way and show them all
Fear is the mind killer
We can't afford so we don't fall

Don't think of these awful places, good has left
mankind
No mistakes and we both will stay alive

Tell the story
Horrid and gory
No one will listen
Until the bell rings

Ask why all the strange behavior, we can only cry
It's a message we tried to convey

So here when the fire dies
We'll make our break and show them all

We came from these horrid places, tell you what we
found
We'll escape this together

If we're here when the fire dies
We'll make our way and we'll show them all
Fear is the one thing left they can't afford
Now they've screwed themselves

These are all the awful places, good has left mankind
No mistakes and it's me and you alive

Alone again, alone again
