Your heart's on a sleeve you wear it oh so well  
Oh how I wish for you to go to -  
Hell is a place that you outta be  
So I can live my life happily  
It's not the place it's all in who you know  
If you're attractive it's all in who you -  
Blew me away with what you could do  
Now I don't know why I'm still with you

Kids in the scene are so misunderstood  
That's why Hot Topic is doing so good  
Stadium seating instead of park benches  
None of these kids know what a 7 inch is

That's all I can take  
Friendships that were fake  
This used to be fun  
But I also have a business to run

Show me the reason and I'll let you go  
With wherever industry's wind -  
Blows off the point but still says it's true  
Sometimes the nicest people screw you  
My foot it in your mouth it seems to taste so good  
For the scene, or so it's under-  
Stood by your side without a regret  
Here's my plate of shit and it's  
All I'm gonna get, god damn it.

Kids in the scene are so misunderstood
