::Verse 1::

From the womb to the world from the world to the
grave from the grave to the heavens and my spirit
From the liquor to the drugs to the police and the thugs
to my prayers and hope that he hears it
Little kids in the street Never sleep never eat Carry
burdens of their mommas' and the papas' To the
hell on this Earth Gettin' hot gettin' worse Cause were
cursed nobody can stop us
Take a look see the sights that I've seen See the lust
see the greed jealousy and killin'
Walk the walk that I've walked All alone in the dark
overtaken by this feelin' that I'm feelin' Touch
the hand that I've touched In the night what a rush
turning blue so could and breathless See the bars
and the chains on your wrist on your brain Feel the pain
of a grown man's death wish

::Chorus::

Is this all there is cause I don't want it no more(x4)

::Verse 2::

That's right little mama just keep on walkin' to school
Don't stop and talk to them fools Tryin' to holla while
they sippin' on brew Cause you're gonna lose
Got to stay focused keep your mind on your dreams
Don't get hypnotized by the bling deep inside you must
believe and you'll succeed
Cause all we're given is a chance They play the music
and we dance And ain't no way to make it last if we
don't stop and listen
It could be over in a flash When you killin' for that cash
Flip an Apache and blast 'em with Tomahawk missiles
Moqtada al Sadr Bin Laden Al Qaeda They all
multiplyin' and hidin' and George can't find 'em
And even if he did and killed them then another would
come
We makin' enemies faster than we could pick up a gun

::Chorus::

Is this all there is cause I don't want it no more(x4)

::Verse 3::

From my soul to my heart From the ending to the start
In between it's an art and I live it From one
person to the next All respect no regrets If you next you
got it then give it
Share a hug share the love we can rise up above If we
try we can fly up to the heavens
All my brothers and my sisters we can make it if we
listen to each other and just keep on

::Chorus::

Is this all there is cause I don't want it no more(x4)
And I can see this change comin'(x3)
