Visit "[New Road](#)" on MotoLyrics.com

I walk
Back through what I have known
Seams sewn but they still show
Now we're slowly finding our way

And this
New road that we've made
Let it help us to mean what we say
Stand by you I will
Stand by you I will

Let the old house burn
To stem and stern
We love
Sometimes we learn
But we're just living now
Yeah we're just living now

I know
We all must move from our side
You're all that I wanted to find
Stand by you I will
Stand by you I will

Let the old house burn
To stem and stern
We love
Sometimes we learn
But we're just living now
Yeah we're just living now
