I am justice in your eyes  
I steal the light that feeds your mind  
But I must be one you have escaped  
I am a witness of you lies  
The purest judge and executor  
But I might be your only save

I am the life in your eyes  
I am the life in your heart  
I am the life inside the dying sun

Secret for your eyes, Mysterious disguise  
Your safe to survive

Enjoy, diversify success  
It's the last you've taken off me  
Exhaust, anger from your pureness  
Save affliction  
No, I never said you believe  
What I understand or say

Secret for...

The truth inside the dying sun  
Dying  
The truth inside the dying sun  
My word is not enough to save the dying:Sun

I am an overdone respect  
Agitation of your hate  
An oder from higher up  
I am corruption of your plans  
The arbitrator of dissension  
I split the difference without compromise

I am the life...
