Late at night, I'm goofy like a clown
Early in the morning, I'm just tryin' to live it down
Late at night, I do just like I please
Early in the morning, I get down upon my knees
Late at night, I held the truth in my hand just like a little
shiny
jewel
Early in the morning, I look in the mirror and see the
same old fool

I'm praying Lord, you got to help me now
Lord, you got to help me now
I'm praying Lord, you got to help me now
Lord, you got to help me now

Late at night, all my neighbors come to call
Early in the morning, I hear them banging on the wall
Late at night, I blow in like a hurricane
Early in the morning, I'm just a steady steady rain
Late at night, I'm a ripping and a roaring enough to
wake the dead
Early in the morning, I can barely find the strength to
raise my aching
head

I'm praying Lord, you got to help me now
Lord, you got to help me now
I'm praying lord, you got to help me now
Lord, you got to help me now

Late at night
