Yeah, yeah, yeah
She had what I desire her love
Wild as fire yeah, yeah
Wonder what secrets a woman keeps inside
Cast a mighty spell on this man's eyes
See her standing in the light
She's confused often at night
She's alone when there's 10,000 there
All I see is the color of her hair
She's alone when there's 10,000 there
Yeah yeah

Why should I try to possess her
When she should be flying so high
When the wine is right there in the cup
What fool would refuse to drink it up
See her standing in the light
She's confused often at night
She's alone when there's 10,000 there
All I see is the color of her hair
She's alone when there's 10,000 there

See her standing in the light
She's confused often at night
She's alone when there's 10,000 there
All I see is the color of her hair
She's alone when there's 10,000 there
All I see is the color of her hair
She's alone when there's 10,000 there
All I see is the color of her hair
She's alone when there's 10,000 there
All I see is the color of her hair
She's alone when there's 10,000 there
Yeah Yeah
She's alone x5
She's alone x5
