I can't catch up to you  
You've already gone too far  
And you don't remember  
Who you are or who I am.  
I can't catch up with you  
You're way up ahead of me  
And you're getting harder see  
Everyday as you run away.

You're cutting lines out on a bible  
Too busy dying to stop and live.  
You done gave up on survival  
You gave all that you can give.  
And I sure wish you would come back home  
Nothing else for you to prove.  
I know you try real hard to make your mark  
But that world don't love you the way I do.

I can't catch up to you  
You've already gone too far  
And you don't remember  
Who you are or who I am.  
I can't catch up with you  
You're way up ahead of me  
And you're getting harder see  
Everyday as you run away.

There just ain't no coming down  
When there ain't no one around  
And your head still makes that sound  
And I watch it drive you crazy.  
Your mama's saying prayers  
Pleading with the man upstairs  
You feel like no one cares  
And I watch it drive you crazy.  
You run run run run hiding from the sun  
And I know you wanna turn around  
But there's nothing I can do.

I can't catch up to you  
You've already gone too far

And you don't remember  
Who you are or who I am.  
I can't catch up with you  
You're way up ahead of me  
And you're getting harder see  
Everyday as you run away.

These demons behind their faces  
You know the lies they tell are true  
You paint yourself into a corner  
And you chose the color blue.  
And you look for inspiration  
In the dark where the sickness lives  
And you're stumbling over your own two feet  
And you're headed for the edge of a cliff.

I can't catch up to you  
You've already gone too far  
And you don't remember  
Who you are or who I am.  
I can't catch up with you  
You're way up ahead of me  
And you're getting harder see  
Everyday as you run away.

I watch you stumble watch you fall  
And I just can't seem to help at all.  
And I feel... I feel like I'm wasting my time with you.  
And I know the way you feel been there myself  
And I just don't wanna see your plan  
And I don't wanna see you go through hell.  
I know it hurts, I know it stabs  
And I know it makes you feel real bad.  
Feel those things that are going on  
Inside your head and make your eyes  
Bloody red and I sympathize  
Cuz I know the way you are  
And I know you won't get far.
