They try to tell me.
But i wouldnt listen.
Fall my wat to the bottom
of the pile.
I've been walking down the sound of this highway.
Just had to do it my way.
Held on to crutches.
Theres no one around for a million miles.
Tired of being lone and angry.
Looks like the sky is about to rise.

Oh my.
Goodness greacous thanks a lot.
When am i going to change my ways.
Oh my.
Goodness greacous thanks a lot.
Looking for ways to change.
There is no shelter from the rain.

Tried to tell me.
That i was stubborn.
Ain't no one going to break my style.
I've been walking down the side of this highway.
Don't what they may say.
I've lied to judges.
Hard to do it when their looking at your files.
Tired of being lone and angry.
Looks like the sky is about to rise

Oh my.
Goodness greacous thanks a lot.
When am i going to change my ways.
Oh my.
Goodness greacous thanks a lot.
Looking for ways to change.
There is no shelter from the rain.

They stare at my face.
I could sleep for taste.
I think they are crazy.
Can't stop my hands from shakeing.

They fill up all my skin.
Dark clouds rolling in.
The rain can't wash away where I've been
The rain can't wash away where I've been

Oh my.
Goodness greacious thanks a lot.
When am i going to change my ways.
Oh my.
Goodness greacious thanks a lot.
Looking for ways to change.
There is no shelter from the rain.
Oh my.
Goodness greacious thanks a lot.
When am i going to change my ways.
Oh my.
Goodness greacious thanks a lot.
Looking for ways to change.
There is no shelter from the rain.
