Night Falls
I fall
And where were you?
And where were you?
Warm skin
Wolf grin
And where were you?
I fell into the moon
And it covered you in blue
I fell into the moon
Can I make it right?
Can I spend the night?
High Tide
Inside
The air is dew
And where were you?
Wild eyed
I died
And where were you?
I crawled out of the world
And you said I shouldn't stay
I crawled out of the world
Can I make it right?
Can I spend the night
*Alone? Alone? Alone?
I fell into the moon
And it covered you in blue
I fell into the moon
Can I make it right?
Can I spend the night?
Alone?
