Like a river  
I'm winding my way back to your love  
And there I'll stay  
Like a river that flows to the sea.  
Like a mountain  
I'll stand by your side protecting your dreams  
From life's crashing tides  
Like a mountain - that's what I'll be.  
Chorus:  
My love for you is a natural thing  
Like a kiss of sunshine on a butterfly wing  
A snowflake shining like a distant star  
A familiar chord on my guitar  
My love is a natural thing.  
Like a summer breeze  
I'll run through your hair  
So that when you're asleep  
You'll know I'm there  
Like a soft breeze - that's what I'll be
