Every single heartbeat...
I see you sleeping
Hungry for every smile on your face
I feel you in every single heartbeat
I hear you breathing
Worries are gone
And leave no trace
We're closer with every single heartbeat
There's such a rhythm
Inside my head
My soul is dancing
I'm not afraid
I feel a rush
Every time you're near
And in the stillness all I hear
Every single heartbeat...
Lost in wonder
How did we find a love like this?
Together we'll chase away the darkness
Every single heartbeat...
It's so amazing
Carried along on waves of bliss
Lifting our spirits
Soaring higher
There's such a rhythm
Inside my head
My soul is dancing
I'm not afraid
I feel a rush
Every time you're near
And in the stillness all I hear
Every single heartbeat...
I watch you dreaming
Follow you to your secret place
Together with every single heartbeat
I feel the rhythm
When you are near
And in the stillness all I hear
Every single heartbeat...
Lost in wonder
How did we find a love like this?

Together we'll chase away the darkness
It's so amazing
Carried along on waves of bliss
Lifting our spirits
Soaring higher
I feel a rhythm inside my head
My soul is dancing
I'm not afraid
In the stillness you are here
Ooh in my soul of love
You changed my life
(Now my heart beats for you)
So many ways
Every single heartbeat...
And all I do
Sending love on it's way to you
I don't get down, I'm never blue
I know your heart beats for me too
Every single heartbeat...
And all I do
Reminds me that you feel it too
When I'm alone a voice comes through
Tells me I've found love
Lost in wonder etc...
Music: Kemmler / Cretu
Lyrics: Reilly / Hodgson
