Where to begin  
How do I start  
At the moment  
Love lit the spark  
Staring at the dawn  
It's impossible to bear  
Endless longing  
Hanging in the air  
You go running through the night  
Try to chase away the pain  
With all those empty words  
Still drumming in your brain  
To be torn between lovers  
Impossible fate  
How do you choose  
When you've left it all too late  
But every time I turn to you  
I see him in your face  
And every time I reach for you  
He's standing in your place  
I don't know how to say this  
His love I can't erase  
So you scream into the wind  
You do your crying in the rain  
Chase after shadows  
But it just won't ease the pain  
To be torn between lovers  
A terrible fate  
How do you choose  
When you've left it much too late  
But every time I turn to you  
He's looking through your eyes  
And when I try to touch you  
I'm overcome by lies  
And there's no easy answer  
To this love I can't deny  
But every time I turn to you  
I see him in your face  
And every time I reach for you  
He's standing in your place  
I don't know how to say this  
His love I can't erase

But every time I turn to you  
He's looking through your eyes  
And when I try to touch you  
I'm overcome by lies  
And there's no easy answer  
To this love I can't deny
