"All I Wanna Do"

I'm watching the sky sink to its sleep
While the cold of the night
Is fallin' upon our street
I'm playing the piano
And singing you love songs off key
And you are pretending that you are sleeping
And you cannot hear me
As simple as something as being with you
Makes life worth living and dreams come true

And all I wanna do is grow old with you
And all I wanna say is keep us dry and let us play
'Cause I love you now

You try to hide it
But I can see that you are watching me
Behind the curtain of your dreams
And since you came along every single thing
Keeps turning me on
And time has taught me that you're one of a kind
Such a good cure for my troubled mind

And all I wanna do is grow old with you
And all I wanna say is keep us dry and let us play
'Cause I love you now

I hope I have become
Something you wanted me to be
More than a lover more than a friend
Something eyes cannot see

And all I wanna do is grow old with you
And all I wanna say is keep us dry and let us play
'Cause I love you now
