Step up to this mountain  
and fall out of this tree  
you got to keep on climbing  
'cause there you'll find me  
crazy days fly by us  
lost in memories  
don't you think about the future  
'cause past tomorrow i can't see  
chorus  
liquid rock flows between us  
molteern fire wears my soul  
crucify me as jesus  
and don't ever let me go  
welcome to this wonderland  
now you thinking clear  
find your dream and now don't  
don't don't be scared  
'cause i'll be with you  
yes i'll be over there with you  
half the earth devides us  
endless stormy seas

chorus

when the moon passes over

catch the kisses you left there

circles ride back to you

yes round back to you

ran my fingers

i ran them through your hair

but stand up straight now

and take a bow

and be all you can be

chorus
