"Dancing Shoes"

Visit "[Dancing Shoes](#)" on MotoLyrics.com

There will never be another day just like this
Well I believe in you so remember this
Counting colors forming in your eyes
And you're looking back
You know it's me so take off your disguise
And stop feeling bad

Just put on your dancing shoes
Leave your heart and sing the blues

There will never be another way
For us to know
I don't care how many days
We've been there before
Someone tries to steal you
But you don't let go
Turn your back and lose yourself
It's your time to glow

Just put on your dancing shoes
Leave your heart and sing the blues

Why build a tower when you could just let it go
I'll carve a rock for us to breathe in
And no one will ever know

Just put on your dancing shoes
Leave your heart and sing the blues
