Heaven help me
For I am on my way down
See you passing
Before I drown
Can you hear me
I'm talking with my eyes

Will you catch
My tears
When I cry
Will you pull me though
When the tide is high

Sudden calling
Lift me out of here
My wings have fallen
Kiss away the tears
Someone opened
A door I can't see

Will you catch
My tears
When I cry
Will you pull me though
When the tide is high

Feel the pressure
A suck of delight
Leave the shelter
Your love will be my light

Will you catch
My tears
When I cry
Will you pull me though
When the tide is high
