[Verse #1]

Just turn around now
Walk away now
Please slow on down now
You feel the pressure

[Pre-Chorus]

And time is always changing
And the people are always different
She'll always tell you one thing
Pick yourself up when you've fallen

[Chorus]

I'm gonna find a way
I'm gonna finally wait
To find out who you are
This time I'll make a change
This time you'll truly stay
I'll know just who you are

[Verse #2]

Looking out on midnight
Gotta do it this time
Slowing down the movement
It's in your own time

[Pre-Chorus]

You're scared he'll walk away, right
Hold your tongue one last time
Just tell one last lie
But don't let him change your mind

[Chorus]

I'm gonna find a way
I'm gonna finally wait
To find out who you are
This time I'll make a change
This time you'll truly stay
I'll know just who you are

[Bridge]

I know you're gonna feel alone
He'll never be the one to know, no

Mmm, mmm

[Instrumental]

[Chorus]

I'm gonna find a way
I'm gonna finally wait
To find out who you are
This time I'll make a change
This time you'll truly stay
I'll know just who you are

[Chorus]

I'm gonna find a way
I'm gonna finally wait
To find out who you are
This time I'll make a change
This time you'll truly stay
I'll know just who you are
