"Set Them Free"

Visit "[Set Them Free](#)" on MotoLyrics.com

Well love, it was written all over your face
Why did you lie to me and make me believe
I was up so high I couldn't see
Love, it wasn't easy for me
Why did you kiss that man in front of me?
You made me so high I couldn't see

If you love someone you set them free
If you love someone you set them free
If you love someone you set them free
If you love someone you set them free

Well love, it was written all over your face
Why did you lie to me and make me believe
I was up so high I couldn't see
Love, it wasn't easy for me
Why did you kiss that man in front of me?
You made me so high I couldn't see

If you love someone you set them free
If you love someone you set them free
If you love someone you set them free
If you love someone you set them free
