(Yvonne Jones/François Valéry)

Joy, as love is not a game, you play to have him hold
you in his arms
Can't you see it's not for long when you don't know
what's wrong ?
With his love, yes, you can escape the past, those
memories never last

Give yourself some time to know, you've never been to
you
Don't be the fool, the next one will be true, love is joy

Your heart is in your past, you're searching for a love,
never known
Look ahead, you're on your own, I know that you'll know
love
When it comes, when the feelings always change
It's not always that way

Give yourself some time to know, you've never been to
you
Don't be the fool, the next one will be true, love is joy
Why do feelings always change ? It shouldn't be that
way

Give yourself some time to know, you've never been to
you
Love will come through, the next one will be true, love
is joy
Why do feelings always change ? It shouldn't be that
way

Give yourself some time to know, you've never been to
you
Love will come through, the next one will be true, love
is joy.
