"Dark Sea"

Visit "[Dark Sea](#)" on MotoLyrics.com

Tell me will you wake me, in the night, when all is lost
Brother don't let it shake me up more than fright
If I could calm the storm that rages inside
I, I would surely try

Black night
Cold heart
You're alive
You can't feel it
My God
Lift him out
The dark sea
He is swimming in

Repeat x2

We were once just children, staring up, at the stars
When did we grow older and come so very far?
We could leave this town, this country, this life
We could live to learn and learn to live without a start,
trouble will
Strike

Black night
Cold heart
You're alive
You can't feel it
My God
Lift him out
The dark sea
He is swimming in

Repeat x2

He is swimming in
