How do you feel
How do you feel
How do you feel, he said

I feel like I just killed a man
Although it doesn't feel real
The blood's too red
He looks too dead

Maybe it's a movie or a dream
Perhaps I'll wake up screaming

There's a plane overhead and the dawn's coming soon
I can see the road by the light of the moon
I can smell the morning, I can hear it warning me

The sun in the morning
The sun in the morning
Let's make like trees and stay
The birds they come
And stay for the summer
In winter they all fly away
