Verse 1

Lord, I

Want you to be pleased with me,

I want you to congratulate

The fact that I act in faith

And I never backed away.

My faith did never fluctuate

Gone tomorrow, but here today

Always kept my eye on you,

Your will for me, up to date

Walking in your footsteps

Following right behind 'em

Kept you in my sight

Cos this life gets kinda blinding

This world did never take over

Served you with my full heart

Never had two masters,

Heart never split in two parts

Could you say that I'd say 'yes'

If death did confront me?

Just like 'She' they pulled the trigger,

Or just like Paul they jumped me

Always shouting praise to you

Even when them trials came

Through persecution, I weren't losing

Dealt them in Jesus' name

Always had the double edge

To keep me up when I lost the legs

Searched the word, your voice I heard

And followed every word you said

And though it was small and still

It's like your voice was audible

I planted seeds to grow to fruit

Though I never saw em all

Chorus

What will they say about me, when I'm dead and gone?

Lord, I want you to say I was your good and faithful
servant,

Cos I don't care what they say, it's only you I want

Lord, I want you to say I was your good and faithful

servant!

Verse 2

Faith like from the Hebrews
11 I think's the chapter
Could you put my name among them
Being faith the major factor?
Even when I made mistakes
I never stayed in guilt for long
Though I fell, and guilt I felt
I always turned to praise and song
I never let it hold back
I never let it hold me down
The cross is done; so I'm your Son
Once was lost but now I'm found
Every opportunity
Just like it was the last
If I received your word, the person heard
When they walked past
Never strove for riches
But worked hard for a wage
Knew the need for money
But knew it would fade away
So I held on to your promises
Indestructible truths
Scrapped youthful desires
And got strapped to the booth
Ready spreading gospel lessons
Changing where the lost had led 'em
Blind leading the blind
Before they opened their eyes
Followed where your passion led me
Noticed where the burdens heavy
Looked for open doors
And only went where you had sent me

Chorus

Verse 3

Could you say that I was wise?
Though scripture learnt and memorized
Was my reaction towards action?
Did my life reflect the Christ?
Holy Spirit dwells within
Changed when I was told this
Seek the Holy Spirit, spit with Him
And speak with boldness
I only boasted in you
Completely focused on you
If I received the glory
It'd stop them noticing you

Ready to give it all up
You said I was on it
Got rid of my pride
Last penny in my wallet
Trusted as responsible
Seen faithful in my duty
From the scale of things
I'm just amazed that you'd have used me
Filthy rags in your sight
But you gave your righteousness
Lived to worship me, but
You came in spite of this
Came to save a sinner
Cos your love I've seen it conquered all
Love so amazing
Has demanded me to worship you
If you see rapping on a stage
Or see walking down the road
This life ain't my own
So I'll be Good & Faithful!

Chorus

Vamp

Servant, servant, Lord I want you to say I was your
good and faithful servant x2
