You've got to get yourself to higher ground
Before all you know comes crashing down
I don't know why you think that running
Is gonna solve what you see coming
I can't give you
Everything you want me to
Ooooooooooooooh
Ooooooooooooooh

You've got a lot of nerve
Oh coming in here
Talking all your mess
Ha take off that dress
Whooaaa let's get down
To business
I know you want to
You know I want you

Run run run
Oh you've gotta get out
You've gotta get out
You've gotta get out

Shame shame this is how it ends when we
Play these games in the end
In the end

You've got to get yourself to higher ground
Before all you know comes crashing down
I don't know why you think that running
Is gonna solve what you see coming

Shame shame this is how it ends when we
Play these games in the end
In the end

Run run run
Oh you've gotta get out
You've gotta get out
You've gotta get out
Oh run run run

Oh you've gotta get out
You've gotta get out
You've gotta get out

I never really judged you
As one (for advantage?)
I never really judged you
As one (for advantage?)
And now you're leaving
Don't go down that way
You're moving too fast
Don't go down that way
You're moving too fast
Fast

I know one day
You'll wait

Run run run
Oh you've gotta get out
You've gotta get out
You've gotta get out
Run run run
Oh you've gotta get out
You've gotta get out
You've gotta get out
Ooooooooooh
Ooooooooooh
Ooooooooooh
Etc etc
