The hypnotic, the psychotic, it's pure logic, I rock it
Bigga's try to name just to put me in a frame
But that's alright with me I grab the mic and just sway

The Hypnatic, the psychotic, you don't love it, well
f@#k it
Bigga's try te name just to put me in a frame
But that's alright with me I grab the mic and just sway

I'm spittin words like this it's kinda oversized,
it's something that I do I make it worth the ride,
so bigga's slide with me , then (you) rely on me,
U realize the level then there's disbelieve.
It's all hands on deck when you come and observe,
it's something outtaline, but the truth just hurts.
So back on up cuz it's time to grow,
you try to make some room, but why you move so slow.
You know the way things go we just don't exist,
on ye 1 to 10 scale we just jump ye list.
It's something that you can't believe, so cut the cheese,
got some more on my sleeve, watch me plea.
Manoeuvre on this with the speed of light,
love does life here, but ye hate denies.
To compromise, that's the thing I lack I hate to brag,
but never the less I made this pact with music.

The hypnotic, the psychotic, it's pure logic, I rock it
Bigga's try to name just to put me in a frame
But that's alright with me I grab the mic and just sway

The Hypnatic, the psychotic, you don't love it, well
f@#k it
Bigga's try te name just to put me in a frame
But that's alright with me I grab the mic and just sway

Heee, let me lay it on down, certified and real
profound.
You caught me splifed, high on life, it's like I'm
kindred, with all that shines.
Intertwine, now that's the quote it took a while for you
the figure now you missed my boat,

I just eloped, I broke ye ought, open ye eyes so you can
hear me flow, then choke on it.
No need for closure it's the arrival,
this ish is number 2 and you still rock that denial,
but in the meanwhile I'll just step outtaline and leave ye
in ye kiddie leguae with ye backpackka state of mind.

The hypnotic, the psychotic, it's pure logic, I rock it
Bigga's try to name just to put me in a frame
But that's allright with me I grab the mic and just sway

The Hypnatic, the psychotic, you don't love it, well
f@#k it
Bigga's try te name just to put me in a frame
But that's allright with me I grab the mic and just sway

So stick it on me (kid) if that releases
Put it on me if that redeems
I ain't the type that holds a grudge for nothing but
fudge, I'm the type that moves and brings out the
gloves
So bring it on me, but know my ledge
Don't compare me, you don't know the half
It's that circles that evolves within and it's that same
damn circle from where (wich) it all begins RELAX
