The suns going down,  
As I drive out of town.  
Unlock the front door;  
Time to turn into a bitch-whore.  
Leather across my tits,  
P.V.C. coated hips;  
Restraints and chains are my toys,  
I carry a variety of whips.

As the day turns to night  
The transformation begins.  
Lace of my bodice of leather,  
Fasten each metallic pin.  
Lose my daytime disguise  
Each time I'm reborn;  
Throw off a pin-stripe  
And replace it with my horn.

Hair tied back from my face  
Neck clad in a black leather embrace.  
Cleavage bolstered, high and tight  
I'm an imposing sight.  
Walk with confidence as I stride;  
Enter the darkened fantasy realm  
Instructed by me as I take the helm.

I don't play games,  
I just inflict pain;  
Leather bound, tongue pierced  
Circus mistress, my job is to tame.  
Get down on all fours,  
And beg me for more,  
You know you need this lashing  
Whip you until your arse is raw!

Bound to the floor  
Leather tied, you're secure;  
Prowling feline predator-ess  
Place paw over paw.  
Insect in my web  
Spider with her prey;

Slap your cock into submission  
Way to my fix, when we play!

Walk into my world  
Where I make the rules;  
Chains on your balls  
Make you drop on all fours.  
Lick the P.V.C. to my thighs  
Plead for my whip released cries;  
Slaves must prove to their mistress' delight  
Before they're awarded a prize.

I don't play games,  
I just inflict pain;  
Leather bound, tongue pierced  
Circus mistress, my job is to tame.  
Bound to the floor  
Leather tied, you're secure;  
Walk into my world  
Where I make the rules;

I'm an imposing sight.  
Walk with confidence as I stride;  
Enter the darkened fantasy realm  
Instructed by me as I take the helm.  
Lick the P.V.C. to my thighs  
Plead for my whip released cries;  
Slaves must prove to their mistress' delight  
Before they're awarded a prize.

Don't you fucking look at me  
Don't you fucking look at me  
Don't you fucking look at me  
Don't you know I'm looking at you.

Don't you fucking look at me  
Don't you fucking look at me  
Don't you fucking look at me  
You know I'm only looking at you.
