Diving into my despair  
Deep and deep downhill  
Long time ago my life was there  
Today I reaped my own black seed

Guilt is what I'm forced to feel  
For unknown reason now I repeat  
All that I am and want to be  
Already dead inside of me

Within my nutshell now I wither  
My castle turns to a dreadful prison  
Shreds of thoughts - inside they litter  
The barren desert of my wisdom

Yeah - I'm a prisoner in myself

This is neverending nightmare  
Won't somebody help me?  
Day by day my candle burns  
I'm not the one who used to be  
The ghosts of traumas of the past  
Are haunting my subconscious realm  
They block my sanity and kill my trust  
Exposing me to a sea of fears

My doleful soul is suffocating  
Caught by unknown inner enemy  
I see a reflection in the mirror  
Of a person that is strange to me

A time of serenity  
After keeping the same illusions  
I turn to me  
I think I've drawn the right conclusions
