F\*ck the cops, f\*ck the world, f\*ck the people in it,  
Take ignorant sh\*t you love hearing,  
This that dose of reality you fearin'  
Hope I'm buried yes but can you pass the test  
Recycle thoughts recycle dreams we're not satisfied  
We chase after the same thing  
We hold us back we're fighting us  
And when we scream we silence us.

...

So we all make a deal with the devil,  
Because negativity is perceived to be better,  
We never... to resist... so it's routine  
So we pretend that we... in our teams  
And... to live like...  
Open up your eye realize what you are on the inside

Chorus:

When we let the blind lead the blind,  
We fall off the cliff at the same time,  
It's mass suicide, we sleeping giants, time to come  
alive  
You your worst enemy,  
You your worst enemy,  
You are your worst enemy,

Let my words be the bullet heard throughout the chaos,  
Let my message sink into your brain and never fade  
out.

The world spins and spins and never changes up,  
We are people of pattern and I'ma shake it up  
We just dance and laugh like what's up, what's up  
Shut the f\*ck up, get up your butt and do something  
In war, start a war, fight the peace, lie to me,  
Stop runnin around so silently  
'Cause I'm gonna be what I was designed to be and  
That's the voice, a voice of youth, a voice of truth,  
A voice for you, a real voice that aint motherf\*cking  
autowned

[2 x Chorus:]
