What you've done how do we ever forget you
You brought love but we still tried to kill you
When I'm down I can't stand the pain
But you died for me and all you would say is

All you've ever said and done is forgiven
All is forgiven
All you've ever said and done is forgiven
All is forgiven

What we see in the stars
The future and our dreams
This is your love
And all is forgiven

You were done, they all tried to forget you
You needed love but they just lied to thrill you
You looked between sunshine and rain
No-one cried for you
But all you would say was

All you've ever said and done is forgiven
All is forgiven
All you've ever said and done is forgiven
All is forgiven

What we see in the stars
The future and our dreams
God is love
And all is forgiven

God is love
And all is forgiven
God is love
And all is forgiven
And God is love
All is forgiven
All is forgiven
