The best laid plans can end in vain  
What I swore I wouldn't do, I did again  
Sooner or later you're caught in a trap  
And I quote the best advice that I've ever had

Let it fly and keep it low  
Find some love and let it flow  
Let it fly and let it fly  
Let it fly and keep it low  
Find some love and let it flow  
Let it fly and let it fly

When I was younger every day was summer  
And my first love, there never was another  
Gone are the friends that i used to know  
Ain't it funny how the past just won't let you go

Let it fly and keep it low  
Find some love and let it flow  
Let it fly and let it fly  
Let it fly and keep it low

Find some love and let it flow  
Let it fly and let it fly

To be free we pass the test  
Promise to my god to do my very best  
My very best

Let it fly and keep it low  
Find some love and let it flow  
Let it fly and let it fly  
Let it fly and keep it low  
Find some love and let it flow  
Let it fly and let it fly  
Let it fly and keep it low  
Find some love and let it flow  
let it fly and let it fly

Aah aah aah aah (rpt)
