

The Rembrandts **"Someone"**

Visit "[Someone](#)" on MotoLyrics.com

We've been together now for such a long time
Through every trial, we'd ever care to go
When I look back, I almost can't believe it
We're not the same people that we used to know

With all the years behind me spent pretending
I didn't need someone like you around
It makes it even harder to imagine
The life I'd be livin', if I hadn't found

Someone to hold me, the way that you do
Someone who needs me, the way I need you
Someone to show me, a way that is true
Someone to love me, the way that I love you

When there was no one left for me to turn to
When all the world I knew was fallin' down
Oh, there were times, I could not face the mornin'
But everything's changed since the day that I found

Someone to hold me, the way that you do
Someone who needs me, the way I need you
Someone to show me, a way that is true
Someone to love me, the way that I love you

Come on, come on, come on, come on, now

Someone to hold me, the way that you do
Someone who needs me, the way I need you
Someone to show me, a way that is true
Someone to love me

Yes, someone to hold me, the way that you do
Someone who needs me, the way I need you
Someone to show me, a way that is true
Someone who loves me, the way that I love you
