I kept you out past five-When we talk, we get so deep
The sun comes up too early...and I know you need your
sleep

But I can't let you go, with just one kiss...from your
tender lips

And I don't wanna wait, to feel the touch...of your
fingertips

Is it too late...too late...too late to love you

Is it too late...too late..too late to love you

It's only Sunday morning, and the paper boy's gone by

I see you off to dreamland, and all that that implies

But I can't let you go, with just one kiss...from your
tender lips

And I can't live without, the love I know...that I know you
give

Is it too late...too late...too late to love you

Is it too late...too late..too late to love you

How'm I gonna get inside?

It seems no matter how I try

It's only ever down to you

Down to you!

Ahhhhh.....ahhhhhh.....ahhhhhh

Now I can't let you go, with just one kiss...from your
tender lips

And I can't live without, the love I know....that I know you
give...to me

Is it too late?!...too late....too late to love you

Is it too late...too late...too late to love you

Is it too late...too late...too late to love you

Is it too late...too late...is it too late to love you

Is it too late?
